

## **General Guidelines for Legalization**

- Please Note that Legalization must be made through appointment via email.
- On the appointment day, bring the original documents which are verified with the authorized person's sticker/signature of the concerned ministry or governmental organization (both original and one extra copy)
- Please note that the certifying sticker/signature of the authorities or attorney from the organization's country origin and the legalizing sticker and signature of the Myanmar Embassy must be on the same page. Thus, there needs to be enough space on the page the certifying sticker/signature is on.
- The process will take at least two (2) business days and you can collect the documents at the next appointment.
- The legalization fee is 25 Euros per document and payment can be made by card transaction.
